

4-H Market Livestock Drug Form

Name of 4-H'er: _____ Club: _____

Species: _____

Providing safe food for the public is important for all individuals involved in the livestock industry. The use of animal health aids, growth promotants, and tranquilizers have approved withdrawal times before slaughter. This form is to help you keep track of those substances you administer and calculate when it is safe to slaughter your animal.

This form must be kept up to date for each market animal you plan to sell at the county fair. This form must be shown at the weigh-in day on Wednesday of the fair. You must also have it available on Saturday morning of the fair for the superintendent to collect. Failure to have this form at the fair will mean your animal cannot go through the Livestock Sale.

Eartag #	Drug/Implant Administered	Date Administered	Withdrawal Time (days, weeks, etc.)	Safe to Slaughter Date

I certify that to the best of my knowledge the animals listed above have been given only those drugs listed and have complied with the legal withdrawal times. I also certify that to the best of my knowledge the animals listed above have not been fed any meat or bone meal or any other animal by-products.
