FOREWORD

This is the 74th year the Pratt County Fair has been held on the present site. We welcome everyone to attend the fair and we express our sincere appreciation to the people of Pratt County and adjoining counties for their interest in helping us promote a better fair each year. The fine cooperation of our business firms is certainly appreciated and a great big thanks goes to all 4-H members and families for making this fair one of the best in the state.

In 1963 the Pratt County Fair Association embarked on a membership campaign, and it has been a success. This plan has helped us develop a better fair. We are grateful for the support of the community and encourage everyone to take advantage of our "Family Membership Plan."

4. For livestock of a wild nature, the Superintendent must decide whether or not it is reasonably safe to allow those animals to enter the show ring or stall. If necessary, the animal(s) will be removed.
5. The same animal may be shown in both the Open Class and 4-H divisions by two different exhibitors.
6. Exhibitors of livestock must keep the part of the building occupied by them neat and clean. It will be the duty of the exhibitor to care for his/her own stall and clean up at the end of the fair. Samples will be collected right off the truck as it comes across the scales. Participating grain elevators are: ADM Grain—Cullison; Skyland Grain, LLC; Farmers Co-op, Isabel; the Kanza Co-op; and the Scouler Company. Branches of these elevators will be included in the collection process.

The sample will be tagged with the producer's name, address, and variety. All producers that are entered will be sent a postage paid envelope with a Crop Data Card following harvest. Complete the agronomic information section of the card and drop it in the mail. This must be completed prior to July 6 to be entered in the Market Wheat Show.

All the wheat entries will be judged by the Kansas Grain Inspection Service prior to the County Fair and displayed at the Fair. Area agri-businesses and elevators are the sponsors for this year's show.

4. Any entry which has been hand-picked or screened will be disqualified.
5. Limitation of entries: Each farmer is limited to one (1) entry for each variety of wheat grown on the exhibitor's farm. A producer is someone who is recognized by the FSA (Farm Service Agency) as a producer within the county.

DEPARTMENT 32

4-H/FFA AND OPEN CLASS SCIENCE PROJECTS

DIVISION 1 ENTOMOLOGY

Superintendents: Dr. LuAnn Bergner, Tyler Dorman

General Guidelines:

1. All entries should be submitted in an 18 x 24 x 3.5-inch wooden display box with a clear plastic top (such as plexiglass). Boxes can be handmade or purchased as long as they are of the correct size.
2. Orders & Family names should follow the taxonomy either
 - A. As printed in "Insects in Kansas" book OR
 - B. As printed on the "Insects in Kansas Book: 2016 Revised. Taxonomy", which follows www.bugguide.net.
3. Each exhibitor is required to identify each box with two identification labels bearing the Exhibitor's name, county or district, the collection class 4-Her is enrolled in and statement of taxonomy used:
 - A. "Insects in Kansas" book OR
 - B. "Insects in Kansas: 2016 Revised Taxonomy", which follows www.bugguide.net.

One label goes in the upper left corner of the box (inside) and the other on the lower right corner of the box (outside). Arrange specimens in the box so the box can be displayed lengthwise.
4. The number of orders, specimens (and families where required) must be included on both of the exhibitor's box identification labels. Only adult specimens can be used in collection boxes; however, one female and one male of a species correctly identified can be displayed.
5. Arrangement of specimens: The preferred method is to arrange the insects in groups or rows parallel to the short sides of the box. Arrangements that run lengthwise of the box are frequently downgraded in judging. Specimens are to be arranged by Order in the box, then Family where required. The sequence arrangement of the Orders in the box will be left up to the member. It is suggested to put the Lepidoptera and Coleoptera in the center of the collection (for Intermediate and Advanced Classes to put these two orders in a box). Then work the other orders around them.
6. For each collection class, two labels will be centered on the pin beneath each specimen. First (closest to the specimen) is the common name label and the second label should include date/locality. Full county name and state abbreviation on the second label are encouraged for 2016 and will be required by 2019. Collector's name on the date/locality label is optional.

7. The specimens should be collected by the exhibitor and should focus on Kansas insects. Insects may be collected from one county into bordering states and labeled accordingly. Other specimens from the United States may be included as long as they are properly labeled and placed in a separate section of the box labeled "Out of State Insects". These specimens will not be included in the count for judging/scoring. Emphasis in judging will be placed on the overall variety of insects represented in the collection, accuracy of identification, skill and technique acquired in mounting of specimens, and overall arrangement and appearance of the collection.
8. Purchased insects are not to be exhibited in collections, but they may be used in educational displays.
9. Specimens of soft bodied insects such as aphids, lice, termites, etc. should be exhibited in alcohol filled vials; however, the use of alcohol filled vials should be limited to only those specimens that lose their shape when pinned, since the vials pose a significant hazard to the rest of the collection if they become loose in transit.

Farmer's Spraying Service, Inc. will award \$10 and \$5 respectively to the 4-H GC and RGC winners.

Beginning Entomology 1, Collection - Display in one standard box a minimum of 50, maximum of 125 species representing at least 7 orders. Follow the general guidelines listed for Collections. Follow the general guidelines listed for Collections. Family identification is required for all insects belonging to the six basic orders are outlined under the Intermediate phase. Only families in the above six orders will be counted for judging. Family identification of insects in the remaining orders is optional, but desirable as long as accuracy is maintained. On a piece of paper list what you did to improve your collection during the current year. Examples: what insects did you add or replace; what orders and/or families you added; what Leadership you provided in this project; and/or what insects you have studied. Attach paper to the back of one of the display boxes. Members may continue to exhibit in this class at the Kansas State Fair for an unrestricted number of years as long as they remain eligible for 4-H membership.

DIVISION 2 ENTOMOLOGY COLLECTION NOTEBOOK

General Guidelines:

Individual entries are to be placed for display in a 3 ring notebook for competition.

1. During the transition, Orders & Family names should follow the taxonomy either
 - A. as printed in "Insects in Kansas" book OR
 - B. as printed in "Insects in Kansas Book: 2016 Revised Taxonomy, which follows www.bugguide.net. Project members are encouraged to progress towards option B by 2019 or as revised "Insects in Kansas" book is available.
2. 4-Hers who have been previously enrolled in or are currently enrolled in the other phases of the Entomology project need to start with the Beginning Phase of Entomology notebooks, not the introductory phase.
3. Each exhibitor is required to identify the notebook by placing the Title Page in the front of the notebook bearing the exhibitors name, county or district and class 4-Her is enrolled in and statement of taxonomy used:
 - A. "Insects in Kansas" book OR
 - B. "Insects in Kansas Book: 2016 Revised Taxonomy", which follows www.bugguide.netThe number of orders, specimens and families (required in Intermediate and Advanced classes) must also be included on the Title Page.
4. Specimen pages should be grouped according to order and should include one page per species. If more than one insect is in the photo, an arrow to indicate identified insect should be used.
5. Date, common name, full county name and state abbreviation should be included for each species. Collector's name on the specimen page is optional.
6. Specimen pages should have two different views of the insect if possible. If pictures are taken on different dates/localities, include information for both.
7. A statement describing the habitat where found/host plant may be included and is encouraged and will be worth a bonus 10 points total, not per page. For Intermediate and Advanced notebooks, this is strongly encouraged.

8. A divider page is to be placed in front of each order of insects with the order name printed on the tab for the page as well as the front of the divider page.
9. For the Intermediate and Advanced classes, insects are also to be grouped by family behind each order divider.
10. If the exhibitor has been in the same class for more than one year, a separate sheet of paper needs to be added stating how many years the exhibitor has been in this class of the project and what the exhibitor did this year to improve their notebook. Place the paper just behind the Title Page in the front of the notebook.
11. A special project must be completed each year and included in the notebook. See project guideline materials for specifications.
